

ISR SUMMER SCHOOL 2024

// WEEKLY THEMES

We have selected weekly themes to guide our Summer School curriculum throughout the duration of the program. These themes are the same for all grade levels (KG-8) and include:

WEEK 1 (JULY 1ST - JULY 5TH): WE ARE UNIQUE

During this week, students will focus on what makes them special. Through a variety of activities, they will explore their individual identities and the qualities that make them unique.

WEEK 2 (JULY 8TH - JULY 12TH): WE ARE EXPLORERS

This week, the children will journey around the world and back in time, studying how the world has changed physically and the inventions that have shaped our lives. They will also explore the wonders of space.

WEEK 3 (JULY 15TH - JULY 19TH): WE ARE ARTISTS

The children will learn about renowned artists and their works, and use natural materials and "junk" to create their own art pieces, drawing inspiration from the work of Andy Goldsworthy.

WEEK 4 (JULY 22ND - JULY 26TH): WE ARE SCIENTISTS

The students will engage in a variety of hands-on science experiments, investigating famous scientists and the impact their discoveries have had on the world today.

FIELD TRIPS

ISR Summer School students from Kindergarten to Grade 8 will be travelling off campus every Wednesday for an exciting field trip!

- Ginoland
